SPECIFICATIONS

The Timberline Collection was crafted for real-world performance in demanding spaces and to solve the performance challenges luxury vinyl often faces in commercial environments. This collection pairs the natural beauty of wood-like planks with reliable, long-term durability that features a robust 20mil wear layer and E.I.R texturing. At the heart of this collection is TitanFinish™, our advanced surface technology that offers superior scratch resistance, slip resistance, and low-maintenance care. Timberline is a resilient, design-forward flooring solution that stands up to the test of time—and foot traffic.

STRUCTURE
